

Hot Plate 062

Quality – Made in Germany

Hot Plate for laboratory and scientific use

Features:

- Temperature control between 27 °C and 45 °C
- Homogeneous temperature distribution
- Planar surface for optimal heat transfer to heating blocks, culture dishes and slides
- Short heating up time
- Very compact and extremely flat
- Space saving due to separate control unit

Technical data:

- Dimensions: 274 x 214 x 18 mm (w x d x h)
- Weight: 2.4 kg
- Accuracy: ± 0.2 °C
- Temperature distribution: ± 0.3 °C
- Heating up time: < 10 min.
- Power supply: 100 – 240 V AC, 50/60 Hz, 60 W
- Temperature adjustable between 27 °C and 45 °C
- Safety class II

Scope of supply:

- Hot plate
- Controller with mains adapter REF 13854

Additional equipment:

- Retractor frame REF 15943
